

D197 - Version Control Template

Step A Screenshot

Below is a screenshot of the current repository graph for the Working branch in Gitlab after completing the steps in A:

Step B Screenshot

Below is a screenshot of the command line action after completing the steps in B (I'm on Mac and adding an SSH key was easier so I cloned that way instead of HTTP):

```

Step C Screenshot

Below are screenshots of the git commands for each change made to the HTML files after completing the steps in C. I made edits to the about, customers, and vision HTML files. They were minor, and I added each one and then committed it.

```
Working d197-version-control $ git add about.html
Working d197-version-control $ git commit -m "switched about first sentence to be negative counterpart of original verbs"
[Working f1e9a99] switched about first sentence to be negative counterpart of original verbs
1 file changed, 1 insertion(+), 1 deletion(-)
Working d197-version-control $ git add customers.html
Working d197-version-control $ git commit -m "switched from Western to Eastern Tech Hub"
[Working 97bda92] switched from Western to Eastern Tech Hub
1 file changed, 1 insertion(+), 1 deletion(-)
Working d197-version-control $ git add vision.html
Working d197-version-control $ git commit -m "switched from pretty good vision to pretty great vision"
[Working 8829122] switched from pretty good vision to pretty great vision
1 file changed, 1 insertion(+), 1 deletion(-)
```

Below is a screenshot of the command line action after completing the steps in C: After committing the 3 edits, I pushed the branch to remote.

```
Working d197-version-control $ git push
